

Reassessment Program

The City of Watertown Assessment Department participates in an annual reassessment program. The purpose of the program is to maintain property values at 100% of market value. This program achieves equity .

There are thirteen residential neighborhoods and 4 commercial neighborhoods in the City of Watertown. Each year market data for these neighborhoods is compiled by the Assessment Department staff . This data is reviewed and analyzed to determine if there are changes occurring in these designated areas. All neighborhoods are trended using the new data. Some trends result in a zero change. Property owners in the neighborhoods that experienced a change are notified of the decrease or increase.

Property owners may review all of the information compiled by the assessor and obtain information regarding assessment review periods by either visiting the Assessment Department or calling the office at (315)785-7760 for assistance.
